Resources for Patients Seeking Donor Sperm

Effective May 25, 2005 the US Food and Drug Administration (FDA) implemented new mandatory regulations for Infertility patients who may want to use donated sperm. The purpose of this regulation is to increase safety by minimizing the risk of transmission and spread of communicable diseases from donor sperm as well as provide high quality care to the recipients of this donated tissue.

RSC works only with reputable sperm donor agencies who meet the FDA requirements for donor testing. If you plan to use donor sperm during your treatment cycle at RSC we recommend you use one of the agencies listed below.

California Cryobank

1019 Gayley Avenue
Los Angeles, CA 90024
Phone: 866-927-9622
Fax: 310 443-0487
www.cryobank.com

Pacific Reproductive Services

444 DeHaro Ste. 222
San Francisco, Ca 94107
Phone: 415-487-2288

Counseling Resources Regarding Donor Gametes

Therapists are an invaluable resource in helping to make decisions about using donor sperm.

Some common points of discussion include:

- how to tell your child about their genetic parentage
- whether to tell friends and family
- grieving the loss (if applicable)
- how to decide if using a known donor is appropriate for you

Amy Blanchard, PhD
21721 Granada Avenue
Cupertino, CA 95014
